Re: Phone conversation with Bob Leese,
Wildman's architect

Bob Leese called me today to ask when (if ever) the Conservancy intended to build on the easements on Wildman's property. I told him that the Conservancy would enforce its rights as to the vertical access easement, and would complete acceptance on the parking easement when the violations were cleared up. I mentioned that construction on the easements could be done within the next year *but no commitment.*

Bob Leese's phone number: 213-392-9343
